ICD-10-PCS Codes File

The ICD-10-PCS codes file is a text file containing the valid ICD-10-PCS codes and their full code titles. For the text file that includes long and abbreviated code titles, headers, and an index number ("order number"), see the ICD-10-PCS Order File.

In this file, the ICD-10-PCS codes are listed in the order in which they appear in the ICD-10-PCS tables (which is the same as alphanumeric order) and is followed by the full description of the code.

The file name is icd10pcs_codes_[year].txt, and it contains ICD-10-PCS (procedure) codes valid beginning October 1 of the upcoming fiscal year.

Each line of the file contains one code, followed by its full description. All ICD-10-PCS codes are 7 characters long, and there is one space between each ICD-10-PCS code and its full description.

The length of each line varies, but the total number of characters in a line is never longer than 400 characters maximum. The codes file is a "fixed length" file, and the fields are defined as follows:

Position	Length	Contents
1	7	ICD-10-PCS code
8	1	Blank
9	To end	Long description
